

Colfax Launches Engineered Systems Business for the Americas

Company to Provide Customers With Complete Pumping System Solutions in Addition to World-Class Pumping Technology

RICHMOND, VA – July 2, 2007 – Colfax, the parent company for leading brands such as Allweiler, Imo and Warren announced today the launch of a new Engineered Systems business for the Americas. The new business enhances Colfax's role as a business partner to its customers, focusing on their specific pumping challenges and providing a complete system solution.

"Colfax, with our strong brands, has long been considered a leader in pump technology in critical applications," said Ellen Donlin, general manager, Colfax Americas Engineered Systems. "With the launch of our Engineered Systems business, we demonstrate Colfax's commitment to customers by providing complete and integrated solutions tailored to their unique specifications."

The Engineered Systems business leverages Colfax's technology expertise to provide new services to customers. Colfax will work closely with customers to evaluate their pumping system needs, develop a complete system approach and finally build and deliver the customized solution.

"Our company has always focused on delivering quality products to our customers," said Bill Roller, senior vice president, Colfax Americas. "Knowing that there are no 'one-size-fits-all' solutions, we are expanding on that focus to delve even deeper into our customers' applications, investigating their challenges and customizing pumping solutions to their unique needs."
