Enovis Announces Fourth Quarter and Full Year 2022 Results

- **Completed first year as independent Med Tech growth company with sales growth of 10%, organic growth of 6% and EBITDA margin expansion**
- **Grew fourth quarter sales 2% to \$409 million, with 5% organic growth over the prior year quarter, and double-digit growth performance in its Reconstructive segment**
- **Reported a fourth quarter net loss from continuing operations of \$0.71 per diluted share with adjusted earnings per share of \$0.72**

WILMINGTON, DE, February 23, 2023 (GLOBE NEWSWIRE)—Enovis™ Corporation (NYSE: ENOV), an innovation-driven, medical technology growth company, today announced its financial results for the fourth quarter and fiscal year ended December 31, 2022. The Company will host an investor conference call and live webcast to discuss these results today at 8:30 am ET.

Fourth Quarter and Fiscal Year 2022 Financial Results

Enovis' fourth quarter net sales of \$409 million grew 2% from the prior year, reflecting 5% organic growth offset by a 3% currency headwind. Sales in the Reconstructive segment grew 12%, and 14% on an organic basis, and its Prevention and Recovery segment declined 2% with 1% organic growth. For the 2022 fiscal year, net sales grew 10% to \$1.6 billion, with organic growth of 6%.

Enovis also reported a fourth quarter operating loss of \$28 million or 6.9% of sales, and adjusted EBITDA of \$75 million, or 18.3% of sales, an improvement of 290 basis points versus the comparable prior year quarter. Full year operating loss was \$71 million or 4.6% of sales and adjusted EBITDA margins improved 70 basis points to 15.1%.

The Company reported a fourth quarter 2022 net loss from continuing operations of \$55 million, or \$0.71 per diluted share, and adjusted earnings per share of \$0.72. For the 2022 fiscal year, the Company reported a net loss from continuing operations of \$38 million, or \$0.25 per diluted share, while adjusted earnings per diluted share grew 15% from the prior year to \$2.27.

“In our first year as an independent med-tech growth company, Enovis delivered strong financial results,” said Matt Trerotola, Chief Executive Officer of Enovis. “Our teams managed through macro-economic and market challenges and delivered solid progress towards our strategic goals. We are building a company that can deliver sustainable high-single-digit organic growth and annual margin expansion, supported by our impactful innovation and investments in faster-growing market sectors. Our teams are harnessing our EGX business system and culture of continuous improvement to drive growth, expand margins and compound value for shareholders.”

2022 Business Highlights

- Successfully launched Enovis as an independent med-tech growth company

- Delivered double-digit organic growth in the Reconstructive segment
- Grew Prevention and Recovery with new product innovation in rehab and bracing solutions and expanded leading MotionMD® platform
- Recent acquisitions performed well, delivering double-digit organic growth, and made solid progress against integration and scaling targets
- Ramping up investments in research and development and building capabilities in enabling technology, highlighted by the acquisition of Insight Medical Systems with its leading augmented reality system, ARVIS®

2023 Financial Outlook

Enovis also announced financial expectations for 2023. Revenue is expected to organically grow 5-6% from the prior year, with adjusted EBITDA of \$255 to \$265 million and adjusted earnings per diluted share in the range of \$2.15 to \$2.30.

Forward-Looking Statements

This press release includes forward-looking statements, including forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Such forward-looking statements include, but are not limited to, statements concerning Enovis' plans, goals, objectives, outlook, expectations and intentions, including the anticipated benefits of the recently completed spin-off of ESAB Corporation into an independent publicly traded company (the "Separation") and other statements that are not historical or current fact. Forward-looking statements are based on Enovis' current expectations and involve risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such forward-looking statements. Factors that could cause Enovis' results to differ materially from current expectations include, but are not limited to, risks related to the impact of the COVID-19 global pandemic, including the scope and duration of the outbreak, the rise, prevalence and severity of variants of the virus, material delays and cancellations of medical procedures, the nature and effectiveness of actions and restrictive measures by governments, businesses and individuals in response to the situation, and their impact on the global and regional economies, financial markets, creditworthiness and financial viability of customers, and overall demand for our products; the war in

Ukraine and escalating geopolitical tensions as a result of Russia's invasion of Ukraine; macroeconomic conditions, including the impact of increasing inflationary pressures; supply chain disruptions; increasing energy costs and availability concerns, particularly in the European market; the potential to incur significant liability if the Separation is determined to be a taxable transaction; the ability to realize the anticipated benefits of the Separation, the financial and operating performance of the company following the Separation; other impacts on Enovis' business and ability to execute business continuity plans; and the other factors detailed in Enovis' reports filed with the U.S. Securities and Exchange Commission (the "SEC"), including its most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q under the caption "Risk Factors," as well as the other risks discussed in Enovis' filings with the SEC. In addition, these statements are based on assumptions that are subject to change. This press release speaks only as of the date hereof. Enovis disclaims any duty to update the information herein.

Non-GAAP Financial Measures

Enovis has provided in this press release financial information that has not been prepared in accordance with accounting principles generally accepted in the United States of America ("non-GAAP"). These non-GAAP financial measures may include one or more of the following: adjusted net income from continuing operations, adjusted net income per diluted share from continuing operations, adjusted EBITDA (earnings before interest, taxes, depreciation and amortization), adjusted EBITDA margin and organic sales growth.

Adjusted net income from continuing operations and Adjusted net income per diluted share from continuing operations excludes restructuring and other charges, European Union Medical Device Regulation ("MDR") and related costs, amortization of acquired intangibles, inventory step up costs, strategic transaction costs, debt extinguishment costs, insurance settlement gain, gains and losses on the Company's investments, and stock compensation costs. Adjusted net income adjusts interest expense to reflect pro forma interest from the Company's term loan facility under the Company's current capital structure after giving effect to the completing of the refinancing transactions in connection with the Separation, and it includes the tax effect of adjusted pre-tax income at applicable tax rates and other tax adjustments. Enovis also presents adjusted net income margin from continuing operations, which is subject to the same adjustments as adjusted net income from continuing operations.

Adjusted EBITDA represents net income or loss from continuing operations excluding taxes, depreciation and amortization, stock-based compensation costs and restructuring and other charges, MDR and related costs, strategic transaction costs, insurance settlement (gain) loss, and inventory step up costs. Enovis presents adjusted EBITDA margin, which is subject to the same adjustments as adjusted EBITDA.

Organic sales growth excludes the impact of acquisitions and foreign exchange rate fluctuations.

These non-GAAP financial measures assist Enovis management in comparing its operating performance over time because certain items may obscure underlying business trends and make comparisons of long-term performance difficult, as they are of a nature and/or size that occur with inconsistent frequency or relate to discrete restructuring plans that are fundamentally different from the ongoing productivity improvements of the Company. Enovis management also believes that presenting these measures allows investors to view its performance using the same measures that the Company uses in evaluating its financial and business performance and trends. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information calculated in accordance with GAAP. Investors are encouraged to review the reconciliation of these non-GAAP measures to their most directly comparable GAAP financial measures. A reconciliation of non-GAAP financial measures presented above to GAAP results has been provided in the financial tables included in this press release. Enovis does not provide reconciliations of adjusted EBITDA or adjusted earnings per share on a forward-looking basis to the closest GAAP financial measures, as such information is not available without unreasonable efforts on a forward-looking basis due to uncertainties regarding, and the potential variability of, reconciling items

excluded from these measures. These items are uncertain, depend on various factors, and could have a material impact on GAAP reported results for the guidance period.
