ENOVIS CORPORATION ANNOUNCES PRICING OF PRIVATE OFFERING OF $400 MILLION OF 3.875% CONVERTIBLE SENIOR NOTES DUE 2028

WILMINGTON, DE, October 20, 2023 (GLOBE NEWSWIRE)—Enovis™ Corporation (NYSE: ENOV, “Enovis” or the “Company”) today announced the pricing of $400 million aggregate principal amount of 3.875% Convertible Senior Notes due 2028 (the “Notes”) in a private offering (the “Offering”). In connection with the Offering, Enovis has granted the initial purchasers of the Notes an option to purchase, within a 13-day period beginning on, and including, the date on which the Notes are first issued, up to an additional $60 million aggregate principal amount of the Notes on the same terms and conditions. The sale of the Notes to the initial purchasers is expected to settle on October 24, 2023, subject to customary closing conditions.

The Notes will bear interest at 3.875% per year. Interest will accrue from October 24, 2023 and will be payable semiannually in arrears on April 15 and October 15 of each year, beginning on April 15, 2024. When issued, the Notes will be senior unsecured obligations of Enovis and will rank equal in right of payment to the Company’s unsecured and unsubordinated indebtedness. The Notes will mature on October 15, 2028, unless earlier repurchased, redeemed or converted in accordance with their terms prior to such date. If the Lima Acquisition is consummated, Enovis intends to hold the net proceeds from the Offering in cash and cash equivalents or use the net proceeds from the Offering to pay the cost of the capped call transactions. Enovis intends to use the remainder of the net proceeds from the Offering to pay the cost of the capped call transactions.

In connection with the pricing of the Notes, Enovis entered into privately negotiated capped call transactions with certain of the initial purchasers or their respective affiliates (the “option counterparties”). The capped call transactions are expected generally to mitigate potential dilution to the Company’s common stock upon conversion of any Notes and/or offset any cash payments the Company is required to make in excess of the principal amount of converted Notes, as the case may be, with such reduction and/or offset subject to a cap. If the initial purchasers exercise their option to purchase additional Notes, the Company expects to enter into additional capped call transactions with the option counterparties. The cap price of the capped call transactions will initially be $89.72 per share of the Company’s common stock, which represents a premium of 100% over the last reported sale price of the Company’s common stock on the New York Stock Exchange on October 19, 2023. The capped call transactions are expected generally to mitigate potential dilution to the Company’s common stock upon conversion of any Notes and/or offset any cash payments the Company is required to make in excess of the principal amount of converted Notes, as the case may be, with such reduction and/or offset subject to a cap. If the initial purchasers exercise their option to purchase additional Notes, the Company expects to enter into additional capped call transactions with the option counterparties. The cap price of the capped call transactions will initially be $89.72 per share of the Company’s common stock, which represents a premium of 100% over the last reported sale price of the Company’s common stock on the New York Stock Exchange on October 19, 2023 and is subject to certain adjustments under the terms of the capped call transactions.

In connection with the capped call transactions, Enovis estimates that the net proceeds from the Offering will be approximately $386.9 million (or approximately $445.1 million if the initial purchasers exercise their option to purchase additional Notes in full), after deducting fees and estimated expenses. Enovis intends to use approximately $53.9 million of the net proceeds from the Offering to pay the cost of the capped call transactions. Enovis intends to use the remainder of the net proceeds from the Offering, together with approximately $400 million of borrowings under a new term loan facility, and cash on hand to fund the cash purchase price of the pending acquisition of Lima Acquisition, with any remaining proceeds being used for general corporate purposes. Until the Lima Acquisition is consummated, Enovis intends to hold the net proceeds from the Offering in cash and cash equivalents or use the net proceeds from the Offering to pay down borrowings under its existing credit facility pending the closing of the transaction. If the initial purchasers exercise their option to purchase additional Notes in full, the Company expects to use approximately $8.1 million of the net proceeds from the sale of the additional Notes to enter into additional capped call transactions with the option counterparties and the remainder to fund the purchase price of the Lima Acquisition, with any remaining proceeds being used for general corporate purposes. If the Lima Acquisition is not consummated, and the Company does not elect to redeem the Notes in connection therewith pursuant to the option described above, the Company intends to use the proceeds the Company would have otherwise used to finance in part the Lima Acquisition for general corporate purposes.

The Notes were offered only to persons reasonably believed to be qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the “Securities Act”). The offer and sale of the Notes and any shares of the Company’s common stock issuable upon conversion of the
Notes, if any, have not been, and will not be, registered under the Securities Act or the securities laws of any other jurisdiction, and unless so registered, the Notes and such shares, if any, may not be offered or sold in the United States except pursuant to an applicable exemption from such registration requirements.

This press release does not constitute an offer to sell or a solicitation of an offer to buy, nor shall there be any offer or sale of, the Notes (or any shares of the Company’s common stock issuable upon conversion of the Notes) in any state or jurisdiction in which the offer, solicitation, or sale would be unlawful prior to the registration or qualification thereof under the securities laws of any such state or jurisdiction.
